RE: September 11th Ceremony

Please accept my deepest appreciation for participating in South Park Township's annual September 11th Ceremony. Having The Patriot Guard Riders in attendance added special significance to the event. Without the sacrifices made by our veterans and active military personnel, many of the freedoms that we presently enjoy and often take for granted would not be available to us today. The remembrance service not only recognizes the Township's first responders, but those who once served and who presently serve in our country's armed forces. Hopefully the members of the Patriot Guard Riders will honor us with their presence again next year. It would be most appreciated if you would forward this email to your fellow riders.
